

**REBEL®**  
PROFESSIONAL SKIN CARE

# IALUFILLER

**“Ageless 40+”**

## RADIANCE MOISTURIZING SERUM

with Low Molecular Weight Hyaluronic Acid in Micro-Profusion,  
Aminobutyric Acid, Radiance Bio-Complex and Lycopene  
Paraben Free - Allergens Free - Mineral Oil Free  
Nickel Tested - Cruelty Free

Rebel Professional Skin Care is a Cosmeceutical Line, result of cutting edge research led by a team of cosmetologists and dermatologists, to provide more performing and safer cosmetic tools. Rebel Professional Skin Care Line includes only Nickel Tested cosmetics compounds to prevent both allergic reactions for those already sensitive to Nickel, but also the sensitization for those who are not allergic to it.

### INDICATIONS

lalufiller Radiance Moisturizing Serum is formulated for particularly wrinkly skin, without tone, dehydrated, dull and faded. Its **“Ageless 40+”** formulation is specific to counteract the ageing signs that appear after the age of 40.

### PROPERTIES

Micro-Profused Hyaluronic Acid instantly penetrates the skin to give a plumping and filling effect, visible from the very first applications. Aminobutyric Acid from the neurotransmitters family, instantly smooths the wrinkles, while a specific Bio-Complex Radiance brightens the skin tone, making it uniform and minimizing the minor imperfections. Lycopene encapsulated in Wheat Cerasome carries effective antiradical properties against the ageing process. Excellent makeup base.

### HOW TO USE

Apply at morning and night on the facial skin through gentle circular movements, then tap to help its absorption. Rebel guarantees effectiveness and purity from first to last application: thanks to the exclusive Airless Serum system, the serum is stored and protected from recurring air exposure.

### ADVISORY NOTICE

Avoid grazes, wounds or sensitized areas and external mucosa. External use only. Keep away from the reach of children. In case of accidental ingestion, contact your doctor. Store in a cool and dry place, away from heat and direct sunlight. The manufacturer / distributor declines any responsibilities for use of this product outside of the one outlined in the How To Use section.

Rotate the capsule to allow the spout to come out. Place it horizontally, press the dispenser repeatedly until the product comes out. Rotate to close it.
