

REBEL®
PROFESSIONAL SKIN CARE

ANTI-AGEING SERUM

NEW FORMULATION RAPID ABSORPTION

LIFTING and FILLING

with Coenzyme Q10, Gamma Aminobutyric Acid, encapsuled Lycopene

Paraben Free – Mineral Oil Free – Nickel Tested – No animal testing

Rebel Professional Skin Care is a cosmeceutical line resulting from studies and innovative research by a pool of cosmetologists and dermatologists, made to provide more performing and safer cosmetics. Rebel Professional Skin Care line includes exclusively Nickel Tested ingredients to prevent developing Nickel sensitivity, or to avoid allergic reactions if you are already sensitive to Nickel.

RECOMMENDATIONS

Rebel Anti-Ageing Serum with Rapid Absorption is the ideal answer for skin in need of an intensive treatment, tonic and supplementary against the signs of age (both chronologically and environmentally triggered): rough skin, wrinkles, dryness, fade, thickening and/or thinning of the derma, skin laxity and alipia. Thanks to our new formulation, the active ingredients are rapidly absorbed in the epidermis and are immediately available. It performs an immediate hydrating, levelling, toning and protective action. It revitalizes and restructures your face skin, regenerating it and smoothing through a multi-directional lifting effect both immediate and delayed.

ACTIVE INGREDIENTS

- *Coenzyme Q10 and Ginseng extract*: antioxidant, against free radicals, main responsible for skin ageing.
 - *Gamma Aminobutyric Acid (GABA)*: endogenous neurotransmitter already present in our body, it instantly levels skin wrinkles.
 - *Jojoba Oil*: it improves skin smoothness without staining it, prevents UV rays damages, accelerates skin reparative process. It counteracts skin ageing from free radicals improving skin elasticity.
- Karité butter*: deeply nourishing, soothing and protective.
- *Chamomile Bisabolol*: soothing, refreshing and purifying, it prevents skin soreness from environmental agents.
 - *Lycopene encapsulated in vegetable ceramide carriers*: effectively anti-radical, dermal reparative and protective against UV rays, improving the microcirculation.
 - *Centella Asiatica*: stimulator of microcirculation and collagen production.

APPLICATION

Apply Rebel Anti-Ageing Serum every morning and evening, on clean and dry face, by gentle touches. Rebel guarantees effectiveness and purity from the first application to the last one: thanks to its exclusive Air Less Serum system, your serum is safe from recurring air exposure.
